

How much electricity does Namibia import?

Currently Namibia imports up to 70% of its electricity from neighbouring countries. This electricity is predominately generated with coal.

How will Namibia improve energy supply stability by 2030?

By 2030 the Namibian government plans to increase the share of renewable energies (RE) in its electricity generation from around 30% to 70%. With a growing share of RE the need for measures to maintain and improve energy supply stability is also growing.

Can a battery storage system support the integration of re?

A battery storage system such as the KfW funded 58MW /75 MWh Omburu BESS Project can fulfil a multitude of tasks related to the challenges of the integration of RE and is ideally suited to support the sustainable development of the Namibian electricity sector.

Why is Namibia a pioneering project?

As the project is the first of its kind in Namibia, it fulfils a pioneering function - it is expected that subsequent projects in the same field will benefit substantially from the experience gained from within this project. Currently Namibia imports up to 70% of its electricity from neighbouring countries.

In Namibia, one of the largest electricity storage systems in southern Africa is currently being built - financed with a grant from KfW. Namibia has great potential for solar and wind energy, but ...

First utility-scale battery energy storage system to be developed in Namibia- ... said the company is committed to building a world-class facility and making it a landmark in the new energy fields ...

Surplus electricity from RE generation as well as cheaper electricity imports from the Southern African Power Pool (SAPP) can be stored in the BESS. The stored energy could supply ...

The Omburu Battery Energy Storage System (BESS) project in Namibia is a groundbreaking initiative that marks a significant step forward in expanding renewable energy ...

Expressing commitment and determination, Jin Bei, a representative from SDEE, pledged to construct a state-of-the-art facility, aiming to make it a benchmark in Namibia's new ...

Get to know HOPSOL Africa, a key player in Namibia's renewable energy sector. With a focus on solar power plants, energy storage systems, residential and commercial solar installations, ...

Namibia's dedicated energy storage battery company

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to ...

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the ...

WINDHOEK, Dec. 13 (Xinhua) -- Namibia's power utility, NamPower, on Wednesday signed an agreement with two Chinese companies for the development of the country's first ...

Hydrostor is a leading global developer and operator of long duration energy storage projects, with a team of dedicated clean energy professionals committed to a proven proprietary ...

Kijo Group is a professional energy storage battery company that integrates science, industry, and trade with production capacity. We have 30 years of expert experience and four production ...

1 day ago; Autel Energy completes its first U.S. integrated EV charging and battery storage project. The company now offers nationwide turnkey design services for scalable, grid-friendly ...

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery ...

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy infrastructure, ...

The project will store surplus renewable generation and imported electricity for use during peak periods, reducing dependence on the local Van Eck coal power plant, enhancing ...

E2S Systems is a Namibian based company that distributes mid, large and grid scale Battery Energy Storage Systems (BESS). Our proven technology partner from Europe, Visblue, ...
