Photovoltaic inverters produced in Nanya

How much will Nanya invest in a new Fab?

In addition to current facilities upgrades, Nanya plans to invest approximately NT\$300 billion for a new fab with a two-story clean room. The construction has started in 2022, and once completed, future generations of our 10nm-class technologies and products will be implemented and produced.

What are the best solar inverter exhibitions in the world?

Here are the most prominent global exhibitions for solar inverters: Intersolar Europe(Munich,Germany): The world's leading solar exhibition,featuring the latest inverter technologies and attracting thousands of professionals annually.

Who is Growatt solar inverter?

Company History: Founded in 2010 in Shenzhen, China, Growatt has quickly risen as a major player in the solar inverter market. Product Range: Growatt offers cost-effective string inverters, hybrid inverters, and energy storage systems for residential and commercial use.

Who makes Sungrow solar inverters?

Sungrow CompanyHistory: Established in 1997 in Hefei,China,Sungrow is one of the world's largest and most respected solar inverter manufacturers. Product Range: Sungrow provides a broad portfolio,including string inverters,central inverters,and energy storage systems for all market segments.

How many companies are involved in inverter production?

Companies involved in Inverter production, a key component of solar systems. 762Inverter manufacturers are listed below. List of Inverter manufacturers. A complete list of component companies involved in Inverter production.

How is Nanya achieving its environmental performance based on sbti-approved targets?

Regarding the environmental performance, Nanya endeavours to reduce the GHG emissions based on our SBTi-approved targets. The Company implemented water conservation measures and wastewater recycling system, and adopted the Alliance for Water Stewardship (AWS) standards in 2023 to optimise water management.

A solar inverter, or solar panel inverter, is a pivotal device in any solar power system. Solar inverters
