

Photovoltaic panel manufacturer in Mauritania

Does Mauritania have a solar power plant?

In the last ten years, Mauritania has made several leaps in the field of developing the exploitation of solar energy, in cooperation with international partners such as the Arab Fund for Economic and Social Development, Masdar Abu Dhabi. Sheikh Zayed Solar Power Plant, a 15 MW facility in Nouakchott, is the first utility-scale one in Mauritania.

What is the future of solar energy in Mauritania?

The future of solar energy in Mauritania is bright, and the country is well on its way to becoming a leader in renewable energy production. With ongoing solar energy projects and Green Hydrogen Projects, residents can look forward to a cleaner, more sustainable energy future.

How much electricity does Mauritania produce?

Mauritania produces over 5% of its electricity through solar energy, generating more than 75 megawatts of electricity annually. This is a testament to the government's commitment to utilizing renewable energy sources and reducing its carbon footprint.
